A Note from the Co-Founders

Dear Families,

We are so excited to share our unique story with you! As toddlers, we met at a home daycare on Mercer Island. We instantly became best friends and spent our childhood days playing “daycare” and “school” with dolls as our students. By the age of three, we knew we wanted to become future “daycare ladies”. After growing up on Mercer Island, managing our own babysitting business, and graduating from Washington State University with degrees in Early Childhood Development and Elementary Education, here we are as “Daycare Ladies”!

The Growing Tree Home Daycare opened in 2013. We hired our first teacher to join our team in 2014. A house on our street became available in 2016 and we opened The Treehouse Playcare & Preschool which offers half day preschool for children over 2.5 years old. In 2019 we opened our Pre-Kindergarten Annex to The Treehouse. Our amazing team of teachers grew to 15. And now, in 2022 we are thrilled to be expanding once more!

Our passion for providing a caring and loving environment for your child to learn and grow in has only deepened over the years. The two of us had a wonderful experience growing up in a nurturing, play-based environment. We strive to create the same impact on your child and to become their home away from home!

At The Growing Tree, we believe in building a community feel by providing opportunities for families to get to know their child’s teachers, friends, and other GT families! Throughout the year we have weekend events, including an annual visit to the pumpkin patch and a summer picnic. We hope to see you there!

Please feel free to contact us anytime or set up an appointment to discuss any questions or concerns.

Thank you for giving us the opportunity to be a part of your child’s one and only childhood!

Sincerely,

Alli and Jessi

About Us

We now have 3 schools on NE 21st ST!

- The Growing Tree Home Daycare: Ages 6 weeks-5 years old (expanding by Summer 2022)
- The Treehouse Preschool & Playcare: 2.5- 4 years old
- The Treehouse Pre-Kindergarten Branch: 4-5 years old (last year before Kindergarten)

The Treehouse Playcare and Preschool is an extension of The Growing Tree Playcare and Preschool, which was established in August of 2013. The Treehouse Playcare and Preschool, established in September 2016, is a privately-owned preschool that offers half day preschool and drop-in care for children 2.5-4.5 years old. As of September 2019, we now offer a Pre-Kindergarten program for children entering kindergarten the following fall!

The Treehouse Preschool and Pre-K Branch are located next door to each other on NE 21st street in Bellevue.

We offer half day Preschool in the mornings from 8:00am-12:00pm Monday through Friday and in the afternoons from 12:30-4:30pm Monday-Thursday for children ages 2.5 to 4 years old. Pre-K is offered in the mornings from 7:45am-11:45am Monday through Friday and in the afternoons from 12:15-4:15pm Monday-Thursday for children who will attend Kindergarten the following year.

Families can choose a set schedule consisting of 1 to 5 days per week or add drop-in days as needed. Children will learn in a rich environment focusing on socialization, creativity, and play.

At The Treehouse Preschool, we have mixed age group classes of 2.5-4 year old's. Younger children learn so much from observing and playing with older children, while older children learn empathy and compassion through helping the younger children. The mixed age group offers more of a family feel, teaching children to be comfortable interacting with other aged children.

The Pre-K Branch of Treehouse is a program specifically geared developmentally for 4 and 5 year old children in preparation for Kindergarten. Children must be potty trained and 4 years old to start Pre-K.

Location

The Treehouse Playcare and Preschool 11511 Ne 21st St, Bellevue, WA, 98004 (3rd driveway on the left)

The Treehouse Pre-K Branch 11521 NE 21st St, Bellevue, WA, 98004 (2nd driveway on the left)

Conveniently located near downtown Bellevue, right off of 116th Ave Ne. and just north of Overlake Hospital and Whole Foods.

Our large fully-fenced outdoor play areas are covered in a thick layer of play chips and nestled under the trees. There are a wide variety of activities including playhouses, climbers, sandboxes, gardens, undercover picnic tables, reading areas, mud kitchens, and more!

Teachers

At the Treehouse all of our teachers have a deep passion and love for early childhood education and working with children! Our teachers are compassionate, patient, and educated. Our teachers have ongoing training each year in the following but are not limited to:

- 30 hours basic STARS training, 20 hours of annual ongoing STARS training
- Infant, Child, and Adult CPR
- First aid training
- HIV/ AIDS/ Blood borne pathogens training
- Food Handling
- Child Restraint, Safe Sleep, Families Experiencing Homelessness, and Medication Management through Department of Children, Youth, and Families
- Treehouse's Health, Safety & Emergency Preparedness Policies
- Lead teachers must have or be working towards a BA in an Early Childhood related field

All of our staff have passed a Washington State Background check and have evidence of a negative tuberculosis test.

If you would like access to our records of training and development, staff policies, consistent care policy, health policy, liability insurance, or inspection reports please feel free to ask. If you are interested in any child development courses or parent resources, we are happy to share some of our favorites.

Get to know your child's teachers! When a new family starts at Treehouse, a brief Friday meeting will be scheduled with the family and all teachers to go over the application and to get to know each other.

Philosophy

We believe in the importance of PLAY! At The Treehouse Playcare, Preschool, & Pre-K we strive to inspire a sense of wonder and playfulness, and build a foundation for a lifelong love of learning. Children have a natural curiosity and interest in the world around them, and they need a balance that allows them to reach their potential, without pushing them beyond their personal comfort limits. We encourage children to discover the world through their own eyes through playing, creating, and exploring.

We believe in hands-on, child directed play. When children are learning and playing with joy, then it is a positive experience. Often times, they don't even realize they are learning because they are so engaged! We believe in offering children educational and social opportunities at an age-appropriate level. With these experiences, imaginations will soar as they learn about who they are and how things work.

Through play and teacher organized activities, we help to prepare your child with the social, emotional and academic skills needed for a successful transition to kindergarten.

Why Play is So Important!

Many American parents over-think the importance of early academic success. They believe that by pushing their toddlers and preschoolers harder to learn, they will be more academically successful in the future. However, more and more research is leaning towards the importance of play and giving children meaningful experiences in an environment that allows them to explore and discover their world. Learning through play gives children the opportunity to take ownership in their learning.

Play is not just something to do in between activities. It is an important activity in itself. Play is active and engages the whole brain, providing opportunities that are multi-sensory, creative and imaginative.

According to the American Academy of Pediatrics' report [The Importance of Play in Promoting Healthy Child Development and Maintaining Strong Parent-Child Bonds:](#)

- Play allows children to use their creativity while developing their imagination, dexterity and physical, cognitive and emotional strength
- Play is important to healthy brain development

- Play allows children to create and explore a world they can master, conquering their fears while practicing adult roles
- Play helps children develop new competencies that lead to enhanced confidence and the resiliency they will need to face future challenges
- When play is allowed to be child driven, children practice decision-making skills, move at their own pace, discover their own areas of interest, and ultimately engage fully in the passions they wish to pursue
- Play allows children to learn how to work in groups, share, negotiate, resolve conflicts and learn self-advocacy skills
- Play allows less verbal children to express their views, experiences and even frustrations
- Play offers parents and caregivers a wonderful opportunity to engage fully with their children
- Play allows for peer interactions and is thus an important component of social-emotional learning
- Play builds active, healthy bodies
- Play helps children adjust to the school setting and even to enhance children's learning readiness, learning behaviors, and problem-solving skills
- Play is a simple joy that is a cherished part of childhood

How Play is Promoted at The Treehouse

Our caring, compassionate, and nurturing teachers recognize the value of play. They are facilitators of learning, who believe in teaching the children how to think, not what to think. Our teachers facilitate play by providing appropriate indoor and outdoor play environments. Safety and age/developmental levels are carefully considered when designing activities. Play materials are related to our thematic instruction, along with the use of props, books, and different toys. Through daily observation of play, teachers can learn about children's social interactions, cognitive and language abilities, motor skills, and emotional development. Using these observations, our teachers can plan future experiences and curriculum that match the needs of each individual child.

Our teachers inspire children by asking open-ended questions, prompting children to think out loud, and starting unstructured conversation. Children and teachers take turns talking and listening to each other, and so importantly, asking questions! Language and literacy experiences are designed to help prepare children to become fluent readers.

Our bright, open, cheerful and home-like environment promotes fun and child-directed activities. Large blocks of time are dedicated to play so that children's play goes uninterrupted and can become more complex. Children are given many choices and can choose activities that best suit their individual needs. The Treehouse Playcare and Preschool offers a wide variety of play areas and materials, including dramatic play areas, playhouses, an art room, reading nooks, books, puzzles, blocks, trucks, and math manipulatives. Play is at the center of our themes and daily lesson plans.

Outdoor adventures are always encouraged for physical and explorative play! Our carefully planned outdoor space is used as an extension of the classroom. It encourages motor and social skills, helps refine existing cognitive structures, and constructs new ones. Art is often created outdoors, encouraging children to explore new possibilities.

Diversity/ Non-Discrimination Policy / Anti-Bias Statement

We embrace every child at The Treehouse. Children will learn compassion and respect from each other's differences. Children learn there are different types of people, families, cultures, and backgrounds. Family traditions are celebrated! Children will feel respected and know they are valued members of the community. We celebrate each child's unique learning style by providing a wide range of activities and experiences that will encourage their natural sense of wonder.

It is important that children are the decision makers during play. The children will choose what and where to play, roles for each player, and how the play will proceed. The Growing Tree provides diverse dolls, books, pictures, games, and materials that do not reinforce stereotypes. We introduce music and language from other cultures as developmentally appropriate, and welcome opportunities to learn about other cultures, abilities, family styles and genders.

The Treehouse Playcare prepares children not only to become students who will work with others cooperatively and approach learning with joy and inclusion. Our teachers will always intervene to stop biased behavior in our classrooms as appropriate by age, This may mean redirecting inappropriate conversations of behaviors, being aware of situations that may involve bias and responded appropriately, and refusing to ignore bias.

Our school is open to all children, teachers and specialists and does not discriminate against an individual because of their race, creed, color, national origin, sex, gender, sexual orientation, military status, marital status, religion, age, or ability.

Special Needs

If children have any special learning or developmental needs, whether formally assessed or not, The Treehouse is happy to work closely with the family to accommodate the needs of the child. All information will remain confidential, but please make sure teachers are aware of any special needs in order to provide the best care possible.

We use the CDC's developmental milestone checklist to communicate areas of strength in your child's development, as well as areas where a child may have special needs or other concerns. We regularly partner with Kindering to provide developmental screenings and assessments and are happy to work with families to provide other outside resources as needed.

We will develop an individual care plan for each child with special needs and notify the department when a child with special needs is enrolled.

Hours of Operation

Treehouse Preschool (children 2.5-4.5 years) offers Morning Preschool Monday-Friday between 8:00am-12:00pm. Afternoons are offered Monday-Thursday between 12:30-4:30pm.

Treehouse Pre-Kindergarten (children 4-6 years, the year before kindergarten) offers Morning Preschool Monday-Friday between 7:45am-11:45pm. Afternoons are offered Monday-Thursday between 12:15-4:15pm.

Daily Schedule

Morning Preschool and Pre-Kindergarten classes are offered 8:00am-12:00pm Monday through Friday.

Afternoon Preschool and Pre-Kindergarten classes are offered 12:30-4:30pm Monday through Thursday.

We will follow a general daily schedule but depending on the flow of the day and weather, it is subject to change. Snacks and circle time are consistent each day. Children will always have the choice to participate or choose a different activity. Our classrooms are designed so that children can have freedom to explore toys, materials, and activities when and how they want. They will never be forced to participate in an activity if they do not want to, but activities are always highly encouraged.

Children in diapers will be changed at least every two hours. If your child would like to rest while in our care, we will provide a pillow bed, blanket, and a quiet environment.

Throughout the day, we have the following activities:

- Indoor free play
- Table activities/ provocations (sensory, art, STEM, literacy, fine motor, etc)
- Reading with teachers
- Snack and story/ wash hands
- Process Art
- Outside Play (structured and unstructured, option for art, reading, fine motor, science, etc)
- Indoor gross motor (yoga/ creative movement/ upstairs Climber)
- AM Lunch (Families bring a lunch from home)
- Circle time (Letter of the week, songs, sharing, story, movement, social emotional lesson)
- Structured group activities, kindergarten prep, guided games, science activities
- Daily specialists (Yoga, Music, Creative Movement, Soccer, Dizzy's Tumble Bus, Woodworking)
- Dramatic play
- Afternoon nap (optional)

Curriculum

We use a project planning method when it comes to developing our curriculum. For the most part, themes follow seasonal changes; for example discussing weather, insects, plants and garden, earth, and animals in the spring. We believe in holistic learning and incorporate all areas of development into our themes and circle time.

All activities are planned and organized with the developmental needs and learning styles of each child in mind. Children learn the most from one-another and we believe we are most successful when facilitating open, engaging, and interesting conversation and play. We celebrate all holidays and encourage families to come in and share traditions with us, we also understand and respect if families prefer to not participate in any events.

Along with our seasonal and emergent curriculum, we also use a social-emotional curriculum. This is used alongside our other lesson plans during circle time, small group work, and throughout the day during conversation. There is also a "Letter of the Week" and "Numbers of the Week" to familiarize children with early math and literacy. For a small part of the day pre-kindergarten children meet for small group, in which the lesson focuses on developmentally appropriate kindergarten preparation activities.

Hand-eye coordination and small muscle manipulation are developed through the children's play, crafts- cutting, coloring, puzzles, stringing, and other such activities. Gross motor activities take place outside, during physical games, music, dramatic play, and in our indoor large movement activity area.

Washington State Early Learning and Development Guidelines for Birth through Kindergarten are closely followed as well as the Objectives for Development and Learning Birth through Third Grade. PDF's can be found here:

https://www.dcyf.wa.gov/sites/default/files/pubs/EL_0015.pdf

<https://teachingstrategies.com/wp-content/uploads/2017/05/Washington-Birth-%C2%AD5-to-GOLD-4.14.17.pdf>

Children's development is also monitored using The Center for Disease Control and Prevention's Developmental Milestones:

<https://www.cdc.gov/ncbddd/actearly/milestones/index.html>

Other important guidelines and standards followed can be found from the following resources:

GOLD Objectives Assessment for Kindergarten:

https://www.k12.wa.us/sites/default/files/public/wakids/pubdocs/gold_hndt_objective_s.pdf

Characteristics of Children Entering Kindergarten:

<https://www.k12.wa.us/sites/default/files/public/wakids/pubdocs/characteristicsofchildrenenteringkindergarten-english.pdf>

Pre-K Curriculum

Our Pre-K program focuses on the following Pre-Kindergarten skills:

Math

- Numerals 1 -20
- Verbal Counting 1 – 20
- One to one correspondence
- Sorting by various attributes; color, shape, size
- Patterns AB, AABB, ABC
- Sizes; small, medium, large
- Shapes; square, rectangle, circle, triangle
- Matching symbols, shapes, patterns etc
- Same and different
- More, less, same
- Time: day and night
- Money: Explore through games, songs and pretend play
- Sequencing

Literacy

- Exposure to alphabet: letters and sounds
- Recognize, spell, write first name
- Hold a pencil, marker, crayon correctly
- Retell familiar stories
- Draw pictures and dictate sentences about stories and experiences
- Answer questions about stories
- Repeat simple nursery rhymes and finger plays
- Concepts of print: left to right direction, holding a book right side up
- Understanding that letters can make words
- Build new vocabulary
- Build listening skills during stories and communication
- Strengthen visual discrimination
- Sequencing
- Develop fine motor skills
- Speak understandably in sentences

Science

- Explore science tools: magnets, prisms, magnifying glasses etc
- Observe and learn about the natural world
- Observe insect life and plant growth
- Observe weather and plant life during each season
- Measure and mix together ingredients in cooking activities
- Identify basic colors and explore color mixing
- Make observational drawings and dictation
- Explore the world with the five senses
- Investigate animals, the homes they live in, the food they eat

Social-Emotional

- Learn to share and take turns
- Show compassion and help others
- Work and play well with others
- Follow simple directions
- Adapt when planned to do is not possible
- Build attention span
- Learn appropriate ways communicate
- Explain emotions and feelings
- Use words to resolve conflict
- Problem solve
- Have conversations
- Respect for diversity

Physical

- Hold a pencil with three finger grip
- Draw lines and shapes
- Open and close scissors with one hand

- Cut in a straight line
- Sustain balance during movement exercises
- Use hands to catch
- Work with fine motor skills

Self-Efficiency

- Use bathroom without help
- Wash hands
- Dress for outside without help
- Eat and drink independently
- Cover mouth when coughing
- Use tissues appropriately

Children will learn these concepts at their own pace but will not be required to master them before entering kindergarten. Activities offered during group time will be interactive, interesting and keep in line with our play-based philosophy. Children will have opportunities to work as a group, individually and in pairs.

The Year at a Glance

*Due to COVID-19, community events and enrichment programs may be paused
September: September is all about settling into the school year, making new friends, and learning important socio-emotional skills to help regulate emotions. We focus in on what makes us each unique, our differences and similarities, family structures, and what it means to be a good friend. As summer transitions to fall, we learn about the changes in the season, apples, farms, leaves, and pumpkins!

Animal Encounter's bring a petting zoo to Treehouse as we kick off our farm studies!

October: Acorns, pumpkins, leaves, oh my! October is our month to celebrate autumn and all of the wonderful changes going on around us in nature. The opportunities for fall science experiences are endless as we dissect and identify parts of apples, pumpkins, and leaves, find out if they sink or float, and make jack lantern volcanoes! Making predictions, counting seeds, and sorting apples and leaves by color, and pumpkin geoboards are just a few of our exciting math activities. This is our favorite month of art, STEM, baking, and sensory activities!

Our visit to The Farm at Swan's Trail wraps up everything we have been learning about thus far. Families gather together to pet farm animals, pick pumpkins, go on a hay ride, watch duck races, stroll through a corn maze, sip apple cider, and celebrate fall!

Children are invited to wear costumes to school throughout Halloween week!

November: Our fall studies continue through November as we discuss the meaning of Thanksgiving and talk about what we're grateful for. We read books that center Indigenous voices, learn about people native to the Seattle area, and talk about explorers and adventurers! In November, we also overlap our Dinosaur theme which is always very popular! We learn that dinosaurs lived long ago and are extinct now. During our dinosaur unit, children learn ways to identify, compare, contrast and classify characteristics of dinosaurs.

Families are encouraged to talk about what they are grateful for at home to continue our school discussion.

December: As winter quickly approaches, we learn about the changes the season brings. The leaves have all fallen from the trees, we dress in hats, mittens and scarves to stay warm, and we spend time with loved ones during many celebrated holidays. Families are invited and encouraged to share any special holiday traditions!

We focus on the idea of giving as we learn about how to help others less fortunate than us, as well as letting our loved ones know we appreciate them. During the month of December we collect toys, household items, children's shoes and clothing, and gift cards for a local charity.

January: Pajamuary, the coziest time of year! While the days are darker, and the weather is colder, children are invited to stay cozy in their pajamas all month long! We return to our winter studies, learning about hibernation, arctic animals, and migratory birds. We focus on diversity, equality, and peace throughout the month, especially between Martin Luther King Jr. Day and Valentine's Day.

At the end of January or beginning of February, we rent out Kid's Quest Children's Museum for families to gather and play!

February: In February, we continue our theme of diversity, equality, and peace, while also adding the abstract concept of love. We talk about what it means to be a good friend and ways to show kindness to those around us. Children are invited to bring valentines to share with their classmates! The rest of the month is jam packed with our exciting Community Helper unit, including Health and Nutrition studies, and Transportation!

Families are invited to come in and tell the kids about their careers during our Career Week! We have a special visit from the local Fire and Police Department!

March: Spring is an exciting season at Treehouse with the many changes in nature. We start our month off with weather studies, move into gardens and the life cycle of plants, and begin our insect unit! Our duck and chicken eggs are placed in the incubator in the middle of the month and we learn about the changes going on inside the eggs! The season of spring brings many wonderful changes that we can observe and enjoy such as

blossoms on cherry trees, blooming tulips, and fluttering butterflies. We watch our caterpillars transform into beautiful butterflies and our seeds sprout into flowers first hand.

Oxbow Farms makes a visit with organic soil and worms in tow to teach us about sustainable gardening and the importance of worms in the garden! We work on our own Treehouse garden, planting vegetables and flowers. Families are invited to bring a plant or seed from home to plant in our community garden!

Towards the end of March, families are invited to Treehouse for our Spring Art Show which displays the brilliant and colorful masterpieces of our little artists!

April: Spring is in full swing in April! We continue to study plants and insects and introduce our earth and space unit. Working with recycled materials, finding new uses for old things, and learning ways we can save the earth are at the core of this month.

As soon as we return from Spring Break our chicks and ducks start to hatch! We watch the babies grow over the next few weeks, while learning how to be gentle with the tiny creatures and what they need to survive. Families have the opportunity to “ducksit” and take home a duck or chick for the night in a class-made take home kit.

May: We are wild about wild animals! In May, we learn about wild animals from all over the world. Identifying the different sounds, characteristics, and habitats of wild animals is always a blast. We have visits from both The Reptile Man and Animal Encounter’s Australian Animals, as well as a weekend fieldtrip to the zoo!

June: We transition from wild animals to ocean animals in the beginning of June! The ocean is a fascinating place and full of interesting creatures to study. We have a marine biologist visit, bringing scuba gear, shells, and shark jaws! We transition into our Beach unit as the season of summer approaches. The “school year” wraps up and our graduates prepare for graduation! Families of children headed to kindergarten are invited to our graduation celebration, where gowns are worn, diplomas are received, and hats are tossed!

July: Just because the “school year” is over, it doesn’t mean we stop learning and growing at The Treehouse! July is based around the Pacific Northwest and we look into all of the wonderful summer activities we can partake in (camping, swimming, picnics, hiking, etc.). We also learn about the geographical features of Washington State in particular. Towards the end of the month, we transition into our fairy tale unit and compare and contrast different versions of many popular fairy tales.

Our annual summer picnic takes place in July! This is a wonderful reunion where current, past, and future families at Growing Tree and Treehouse gather!

August: Fairy Tales and Art studies! As we wrap up our fairy tale unit, we transition into Art studies. We look into some famous works of art and artists throughout history. Different techniques, colors, materials, mediums, texture, and styles are practiced. We have a school of wonderful artists and there is no such thing as a bad piece of work at Treehouse, especially if the process is enjoyed!

Religion and Cultural Traditions in Regards to Curriculum

Holidays are often times an important part of a child's life and family traditions. At The Treehouse we look to include all religions, races, cultures, and customs in order to create a classroom community. We would love to hear about holiday customs and traditions each family celebrates at home and welcome any and all ideas to learn about in the classroom! Many times teachers' highlight the broader concepts related to particular holidays, such as family, sharing, foods, seasons, and friendship. If parents or children do not want to participate in any of our activities, alternative activities will be provided. Talk to your child's teacher about options.

Enrichment Programs and Specialists

Since The Treehouse does not take field trips during the days/hours of operation (at this point in time), we bring field trips to us! A variety of specialists come throughout the year teaching classes on music/movement, science, art, exercise /sports, dance, theater, nutrition, community helpers, and many more exciting subjects! Days/times of the week that enrichment programs take place alternate throughout the year so that all part-time children can participate as well. If your child only comes part-time, they are always welcome to come to enrichment programs, as long as a guardian stays with them and we are notified in advance. If you do not want your child to participate in a certain activity, or your child chooses not to participate, teachers will provide alternative activities.

Calendar/ Holidays

Since we are a small business we have scheduled in holiday and vacation time for our employees. Professional Development Days are worked into the calendar to ensure all staff members are able to attend. We hope that by providing a schedule to families in advance, you can make other arrangements or take family vacations of your own!

Tuition is based on a yearly rate and divided evenly among the 12 months of the year, regardless of closures, holidays, and vacations. Along with Federal Holidays, and a Summer and Winter Break, we close once per season for Teacher Development and school maintenance.

Scheduled closures include the following dates.

2022

- January 14th- Parent Teacher Conferences
- January 17th- MLK Jr. Day
- February 18th- Professional Development Days/ Parent Teacher Conferences
- February 21st- President's Day
- April 11th-15th Spring Break
- May 26th-27th- Professional Development Days
- May 30th - Memorial Day Observed
- June 20th- Juneteenth Observed
- July 4th-8th Independence Day/Summer Break
- September 1st-2nd: Professional Development Days
- September 5th- Labor Day Observed
- September 6th- First Day of School
- November 10th-Professional Development Day
- November 11th: Veterans Day Observed
- November 24th-25th: Thanksgiving
- December 26th-30th: Winter Break

2023

- January 2nd- Return from Winter Break
- January 16th- MLK Jr. Day Observed
- February 16-17th- Professional Development Day
- February 20th- Presidents Day Observed
- April 10-14th- Spring Break
- May 25th-26th- Professional Development Day
- May 29th - Memorial Day Observed
- June 19th- Juneteenth Observed
- July 3rd-7th Independence Day/Summer Break
- August 31st- Professional Development Day
- September 1st-Professional Development Day
- September 4th- Labor Day Observed
- November 9th-Professional Development Day
- November 10th- Veterans Day Observed
- November 23rd-24th: Thanksgiving
- December 25th-29th: Winter Break
- January 1st- New Year's Day

*Subject to change, at least one month notification will be given

Weather Policy

We follow the Bellevue School District for weather closures. If there will be snow in the Bellevue area, please check the Bellevue School District website for closures. For safety reasons, we will follow this schedule for late-start or closures. If there is a late start announcement, The Treehouse will open for the afternoon program only at 12:30pm. You can find more information on school closures on <https://bsd405.org>.

On a rare occasion, we may cancel school even if BSD announces a late-start, so please check your email for updates as well. We highly recommend playing it safe and staying home when road conditions are dangerous. We are not liable for any accidents that happen on our property due to snow or ice. During a heavy snowfall please leave work early and pick up your child while roads allow safe travel.

Other weather conditions that may warrant a school closure or early child pick-up include heat in excess of 100 degrees, cold less than 20 degrees, lightning storms (if there is immediate or likely danger), earthquakes, air quality emergencies, and/or lockdown notifications issued by a public safety authority. Additionally, if there has been a power blackout for 2 hours we will call you and children will need to be picked up.

Registration Process

The Treehouse enrolls children 2.5 (30 months)- 5 years old. In order to register your child, you must first tour the school you are interested in. After touring, submit an application along with a non-refundable \$50.00 application fee. The application fee also includes a trial day in order to insure it is the best fit for your child. Your application will be reviewed, and if accepted, the supply and registration fee are due to hold the space (prorated if mid-school year).

If there the time/day you are interested in is full, we recommend starting with a time/day that is open which will give you priority on the waitlist to move to your ideal schedule.

There is a \$180.00 annual supply & registration fee per family due each September which covers September through August.

By your child's start date, a completed registration form must be submitted. Each registration packet includes information on a child's health history, written consent for emergency medical care, and general information about the child and family. We also need a complete record of immunizations on the Department of Health's form.

A meet and greet with the teachers will be scheduled on a Friday afternoon around the start date.

Tuition Fees and Payment Schedule January 2021- August 2021

Mornings offered Monday-Friday (Pre-K 7:45am-11:45am, Preschool 8am-12pm)

	5 days/wk	4 days/wk	3 days/wk	2 days/wk	1 day/wk
Mornings	\$1155	\$1000	\$800	\$575	\$290

Afternoons offered Monday-Thursday (Pre-K 12:15-4:15pm, Preschool 12:30-4:30)

	5 days/wk	4 days/wk	3 days/wk	2 days/wk	1 day/wk
Afternoons	NA	\$1000	\$800	\$575	\$290

*The Treehouse offers a 5% sibling discount off the total monthly tuition

*Monthly tuition rates increase 5% for each family annually in September

Additional Fees

- \$50 application and trial day fee
- \$180 annual supply & registration fee
- \$60.00/ day for drop-in playcare
- \$20/hr for drop-in's at Growing Tree
- \$25.00 for the first five days tuition is turned in late, \$25/day after that
- \$5.00 for the first five minutes a child is picked up late or arrives before their scheduled time, then \$5/ minute after that

WHAT'S INCLUDED IN YOUR FEES AND TUITION

- Unconditional love and nurturing of your child
- Qualified and exceptional teachers
- Parent resources
- Dependability
- Small, home-like, positive atmosphere that promises one on one attention vs. a large center environment
- Weekly, monthly, and yearly extra-curricular specialists
- Weekly professional cleaning
- Nutritious snacks which are mainly fresh and organic
- Daily communication about your child's day, weekly newsletters, monthly updates, and twice a year developmental progress reports
- Administrative costs, Procure Connect account, bookkeeping , etc
- Preschool Program that promotes learning through play
- All arts and crafts supplies
- Toys, games, puzzles, books, music supplies, and outdoor toys
- Potty training assistance and wipes
- First Aid supplies
- All supplies needed for our holiday, birthday or other fun themed events that we have

- throughout the year
- Back to School Night, Winter Festival, Spring Art Show, Graduation, and Summer Picnic
 - Teacher Trainings: CPR/First Aid certification, early childhood education conferences, child development classes, etc.
 - Utilities: electricity, heat, water, garbage, gas, etc.
 - Furniture: wear and tear, cleaning, replacing, repairing, etc.
 - The list goes on...

Tuition is charged monthly. Our rates are based on yearly tuition, divided by 12 months. The Treehouse does not offer vacation discounts, closure prorates, or offer refunds if a child is absent. We charge for the space, not by the hour, so if your child leaves earlier than your registered time, you will still pay the whole full or half day fee. We are unable to trade missed days, but additional drop-in days may be added if space is available.

Your bill will be emailed out one week prior to the end of the month. Tuition is due the last day of every month for the following month (i.e. November tuition is due by October 31st). Please note the late fee of \$25.00 for payments up to 5 days late (made by the 5th of the month, and \$25 per day after that. If tuition is not paid by the 10th, a child cannot attend care until tuition is paid. Any extra fees or additional time will be added on to the next month's bill.

Payments can be made through checks, cash, online through Procure Connect. Procure Connect charges fees for credit card use, so we recommend using routing numbers or debit cards if paying electronically. Checks can be mailed to The Treehouse, 11511 NE 21st ST, Bellevue, 98004.

Absences

Please notify us in the event of any absence, planned or unplanned. Please text the teachers if the absence is day of. We are unable to trade missed days, but additional drop-in days may be added if space is available. If your child will be absent for an extended period of time, but under 4 weeks, the full tuition is still required to hold your child's space. If your child will be gone for more than 4 weeks or multiple months (i.e. teachers with summers off), in order to hold their spot we ask for half of each month's tuition.

Please allow at least 30 days written notice if you wish to cancel enrollment. We require payment throughout the 30 days of notice while we are filling your space. If your child does not attend throughout the 30 days, payment is still due.

Illness Policy

Due to COVID-19, our illness policy currently includes all household members, not just the child. If COVID symptoms are present, we require a negative COVID test to return to school. Temperatures will be taken throughout the day with a digital forehead scan thermometer.

It is not unusual when a child starts in any type of group play or childcare to develop more illnesses than before. Children who have been in childcare are LESS likely to develop illness in their school age years, compared to children who have not been in childcare. All children will be observed for signs of illness when they arrive and throughout the day. Parents will be notified right away if there are any signs or symptoms of illness.

If a child or staff member has any of the following illnesses or symptoms, they are required to leave the early learning space and must remain home for at least 24 hours after being symptom free:

- Unexplained rash
- Fever of 100F or higher
- Excessive cold including runny nose or cough
- Sore throat
- Vomiting more than two times in 24 hours
- Diarrhea more than two times in 24 hours or if stool contains more than a drop of blood or mucus
- Lice, ringworm, or scabies. Individuals with head lice, ringworm, or scabies must be excluded from the childcare premises beginning from the end of the day the head lice, ringworm, or scabies was discovered. The provider may allow an individual with head lice, ringworm, or scabies to return to the premises after receiving the first treatments
- Open sores or wounds discharging bodily fluids that cannot be adequately covered with a waterproof dressing or mouth sores with drooling
- Discharge from eyes or ears including Conjunctivitis (pink eye)
- Communicable diseases
- Lethargy, persistent crying, difficulty breathing, or a significant change in behavior or activity level indicative of illness.

It is everyone's responsibility to do everything possible to prevent contagious infections from spreading to the other children in our care.

If a child develops an illness while in our care, they will be isolated from the other kids (as best possible) and you will be contacted so that you can immediately pick up your child or make such arrangements. Your child may also be sent home if their illness or condition prevents them from participating in normal activities, requires more care and attention than teachers can reasonably give, the amount of care the child needs places the health and safety of other children in care at risk or there is a risk that the child's illness or condition will spread to other children or individuals.

State regulations require that they do not return until they have been symptom-free for at least 24hrs. This policy will be strictly enforced to keep the children as healthy as possible. This also applies to illness over the weekend or while at home. Please keep in

mind that bringing a sick child to daycare can result in us becoming ill and us having to close the daycare for all the families in care. If your child is ill, please notify us regarding the nature of the illness, especially if it is contagious. If more than 3 children in a class have the same illness, we will notify the families in the class. If a staff member or child is diagnosed by a health care professional with a contagious disease, we must provide written notice to the department, the local health jurisdiction, and the parents or guardians of the enrolled children within 24 hours.

If your child still appears sick or contagious, we ask that you bring a doctor's note clearing your child to be around other children at daycare upon their return. If a child has an individual care plan or is protected by the ADA, we will follow their plan.

Allergies

We know how common allergies are and we will do everything we can to accommodate your child's needs.

Please provide written instructions (the individual care plan) from the child's health care provider and parent or guardian if your child has a known food allergy or special dietary requirement due to a health condition. Please identify foods that must not be consumed by the child and steps to take in the case of an unintended allergic reaction, as well as foods that can be substituted.

Please provide a specific treatment plan to follow in response to an allergic reaction. The specific treatment plan must include the names of all medications to be administered, directions for how to administer the medication, directions related to medication dosage amounts, and description of allergic reactions and symptoms associated with the child's particular allergies.

If a child suffers from an allergic reaction while in our care, we will immediately administer medication pursuant to the instructions in that child's individual care plan. 911 will be contacted whenever epinephrine or other life-saving medication has been administered and we will notify the parents or guardians of the child.

Staff will review each child's individual care plan information for food allergies prior to serving food to children.

Medications

If your child takes medications daily, we ask that your doctor prescribe morning and/or evening dosages, so that you can give your child his/her medicine. If your child is ill enough to need over the counter medication administered throughout the day, it is an indication that they should be kept at home.

If it is absolutely crucial...written permission from your child's doctor/pediatrician/dentist must be obtained prior to administering any medication, including over-the-counter medicines. We must also have written permission from you to administer medications. Prescription medication must be brought in its pharmacy container, appropriately labeled by the pharmacy or person with prescriptive authority. It must also note the dosing/administering directions. Medications will always be stored out of reach of children and will only be given to the child whose name is on the labeled medication. A medication given while in care will be clearly documented. Please note: Amber teething necklaces are considered non-prescription medication and are prohibited in early learning facilities.

If you have further questions regarding the management of specific illnesses or symptoms, contact us directly, or call the Seattle-King County Department of Public Health Care Illness Prevention Program at 1-800-451-4512.

Child Health and Immunization Records

In order to ensure the health and safety of all our children, it is crucial that we have the children's updated health and Immunization records. Please bring updated records after your child has any new vaccinations. These records will be completely confidential and stored in your child's file on Procure. Records must be documented and signed on the Department of Health form found here:

https://www.dcyf.wa.gov/sites/default/files/pdf/el-license/348-013_CertificateImmunizationStatusForm.pdf

Before attending an early learning program, a child must be vaccinated against or show proof of acquired immunity for the vaccine-preventable disease. A current and complete department of health approved certificate of immunization status (CIS) form or a department approved certificate of exemption (COE) form are required by the start of the program. Children exempted from immunization by their parent or guardian will not be accepted into care unless that exemption is due to an illness protected by the ADA or WLAD or by a completed and signed COE.

To accept a child who is not current with their immunizations, the parent or guardian must provide written proof the child is scheduled to be immunized and provide a signed and dated statement detailing when the child's immunizations will be brought up to date. These records are available for review by department licensors, health specialists, and health consultants.

If an outbreak of a vaccine-preventable disease occurs within the program, we will notify the parents or guardians of children exempt from immunization for that disease. We may

exclude the child from the child care premises for the duration of the outbreak of that vaccine-preventable disease.

Snacks and Meals

At The Treehouse we believe in healthy growing foods! We serve quality organic and/or fresh foods two times a day at snack (9:45-10:00am, and 1:30-2:30pm). Parents are welcome to bring food for their child. Food brought from home will be monitored to ensure safe preparation, storage, and nutritional adequacy. Please save treats and desserts for home. Lunch foods will not be shared between children. If your child has allergies, sensitivities, or dietary needs, please talk to the teachers and feel free to bring their own snacks with their name clearly labeled on it.

Morning Snack is between 9:45 and 10:15, and afternoon snack will be served between 1:30 and 2:30pm. If your child arrives after the start time of each snack, please give them the opportunity to eat before they come to school or bring their own.

We do not menu plan, instead we let the children to help decide what we should have for each balanced snack. Children are always encouraged to try new foods, but never forced to eat their snacks. By serving 2-3 different types of foods, our hope is that at least one will be eaten! If your child is an extremely picky eater, feel free to pack snacks from home to supplement our snacks. *The Treehouse is a NUT FREE school

Examples of snack foods (2-3 items served for each snack)

*Mostly whole wheat/grain, non- processed, organic, and sugar-free

Grains	Proteins	Fruits and Vegetables
Toast	Cheese slices	Strawberries
Cereal	String cheese	Blueberries
Granola	Hard boiled egg	Raspberries
Crackers	Low-fat cottage cheese	Blackberries

Brown rice cakes	Chicken slices	Watermelon
Bagel	Sunflower butter	Kiwi
Natural Popcorn	Cream cheese	Mango
English muffin	Hummus	Cantaloupe
Tortillas	Black bean dip	Bananas
Bran Muffins	Tuna salad	Avocado
Corn chips	Pumpkin Seeds	Bell peppers
Oatmeal		Cucumbers
Pretzels		Snap peas
		Carrots
		Tomatoes
		Broccoli

		Cauliflower
--	--	-------------

Nut Free Policy

At The Treehouse, we err on the side of caution when it comes to safety. Nut allergies have become so common and we know how unpredictable allergies can be. We have chosen to be a nut free school in order to eliminate the possibility of a nut allergic reaction. Please help us by observing the nut-free policy, whether your child has allergies or not. Please do not pack any nut products in your child's lunch or bring products containing nuts for celebrations. If you are unsure about a certain food, feel free to check with us. We greatly appreciate your support as we strive to provide a safe environment for all children.

Birthdays and Celebrations

Birthdays are a special time in a child's life and they deserve a celebration! We encourage parents to bring a treat or activity to celebrate, but it's in no way required! Please make sure there is enough for every child and discuss plans/ schedule it with your child's teacher. Healthy snacks are always welcomed and encouraged. We also share a class list and encourage families to invite their child's friends from Treehouse!

If you would like to bring Birthday treats for your child to celebrate with at school, these snacks must be store bought, in original packaging and uncut if fruits and vegetables. If families wish to bring in baked goods from home, please let us know ahead of time as we must get permission from other children's families before serving it.

If you do not want your child having any sugar while at school or other treats, please provide the teachers with an alternative that we can keep in the pantry or freezer.

Arrival and Dismissal

While children are at The Treehouse, they are under direct supervision at all times. Do not under any circumstance leave your child unsupervised in the parking lot, on the playground, inside the building, or hallways. Children must be in auditory and visual range of a responsible adult. Please be sure to fill your child's teachers in on any updates, concerns, or unusual behaviors they should be aware of. If you need assistance while dropping off or picking up your child, please let us know so a teacher can help. In order to keep the drop off process running smoothly, we do ask that you be brief, yet make sure a teacher is aware your leaving. For many children, the longer their parents linger, the harder the separation is.

Due to COVID-19, all drop-offs and pick-ups are done at the door. A teacher will greet at the door and only the child will enter or exit. The child's temperature will be taken upon entering and they will wash/sanitize hands.

For your convenience we have created a mudroom (under the carport at TH and in the entry way at Pre-K) with cubbies for backpacks and extra personal items. We recommend bringing these items home with you at the end of the day. Please do not leave valuables outside. Please leave at least two labeled diapers or pull-ups in the basket if applicable. Lunches and water bottles can be placed on designated lunch box shelf inside. In the mudroom area, we have a calendar display with the month's events, specialists, and reminders. A community board posts community events, recommendations, parent resources, and local business cards of Treehouse families. We also have a parent resource library with books that can be checked out. Fliers, handouts, and additional resources are usually by the calendar.

The Treehouse uses the electronic program Procure Connect for billing and attendance. An iPad is used to sign your child in and out in the entryway of The Treehouse. Each caregiver will be given a PIN to enter in, followed by a signature. It is extremely important to sign in every time you pick up and drop off your child. There will also be a space for you to add any important notes/information that we may need throughout the day. Please leave any and all phone numbers of where you can be reached throughout the day. Only parents, guardians, or caregivers can sign a child in and out.

*Due to COVID-19, teachers will sign children in and out

If someone else is going to pick up your child (nanny, friend, family member), we need a copy of his/her driver's license and written parent permission before hand. Your child's safety and whereabouts are extremely important to us.

You may pick up and drop off your child at any point throughout our hours of operation. Any schedule changes for your child or add on days must be made in writing or through email.

Children will not be released to a parent or any person who is under the influence of drugs or alcohol.

When parking, please be aware that there are other parents who may be pulling in at the same time and keep your stay reasonably short so they are not blocked in.

Late Policy

Our late fee is \$5.00 for the first 5 minutes, and the \$5/ minute after that for your child is in attendance for more than 4 hours or after 4:45 pm. We understand if there is an emergency, however, if you are consistently late (3+ times a month) an additional \$50.00 will be added to your next month's invoice.

The same goes for tuition payments. Tuition is paid in advanced and due the last day of the month for the following month. We have a \$25.00 late fee for the first 5 days, and then

\$5 for every day your payment is late. A child can no longer attend school if payment is not made by the 10th of the month, until tuition is paid. We rely on tuition to keep our preschool running!

Clothing and Supplies to Bring

Kids will be kids! Please bring a small labeled backpack daily, with an extra change of clothes for your child and place diapers/pull-ups (if needed) in the basket out front. Always layer, layer, layer! With Seattle's spontaneous weather, your child may need a coat and a short sleeve shirt in the same day. Better safe than sorry when it comes to warmth. We also recommend bringing a pair of rain pants, rain boots and extra clothes to keep at Treehouse.

During the summer, please pack items your child will need to be comfortable such as a sun hat, water bottle, or sunglasses. In the colder months, please bring a hat, scarf, mittens etc.

We do not wear shoes inside. Children will keep their shoes with their belongings until they go outside. We recommend bringing your child in shoes that they can get on and off independently (rain boots, Velcro, or slip-ons).

At The Treehouse, we may get dirty! We paint, play outside, and cook! Clothes may get dirty or stained, so please do not send them in clothes you would like to remain pristine.

We do ask that you bring diapers or pull-ups with tabs, if needed for your young child. We will provide Kirkland Signature baby wipes.

Please label all personal items that your child brings to school. We are not responsible for items left or lost at The Treehouse. We have a lost and found bin in the entryway for any found items that are not labeled. After six months, items will be donated if not claimed.

If your child has a toy that they would like to bring, they need to be willing to share it with the other children. Be aware that items from home could get lost or broken, so keep the pricey stuff at home!

Separation Anxiety

Separation anxiety is very common for children to experience when starting at a playcare. In order to help your child make a smooth transition into our care, we have found that the quicker the parent drops-off their child, the easier it is for the child to adapt to the environment. We will do our best to stay in contact with the parents throughout the first few days (giving updates, sending photos, etc.). When children can sense a fear of separation in their parent, they are likely to have a harder time adjusting. Try to make drop-offs quick, model excitement to your child, and remind them you will always be

back to pick them up. Most children make a smooth transition into childcare within the first two weeks. If there is no sign of progress adjusting into our care, we may not be the right fit for your child, and that's okay! Every child is different and will find their niche eventually. Again, our goal is to provide a positive experience for all children and families.

Outdoor Play

Getting outside for at least one hour a day (usually more!) is our priority and we encourage all families to come each day prepared with the weather appropriate gear. Teachers are also prepared for weather and children are never left alone outside unsupervised. Children are encouraged to play freely regardless of weather conditions and clothes and shoes will get wet and muddy. Upon going inside children are promptly changed into dry clean clothes and outdoor gear is cleaned and dried to the best of our ability. We teach the children that our clothes function as protection from the elements and families are encouraged to send their child in comfortable clothes they don't mind getting dirty.

Clothing to bring for outdoor play:

- A pair of labeled rain pants and CLEARLY LABELED rain boots to leave at Treehouse. These items should be easy to pull on and easy to take off for maximum outside time!
- A labeled rain coat, or layers so that children will be comfortable in all weather.
- Easy-on/ easy-off summer shoes
- A swimsuit/change of clothes in the warmer months for the water table and sprinkler!
- EXTRA CLOTHES

Diapers/ Potty Training/Toileting

We do not require children to be potty trained at Treehouse, however children do need to be fully using the bathroom independently to start Pre-K. Children should be in or nearing the potty-training stage by the time they start at The Treehouse. Our goal is to work together with each family to find a potty-training method that works best for each child. Toilet training should be initiated when the child indicates readiness.

Every child learns differently, and we will work with you to find a potty-training method that works for your child. Please bring extra clothes during this time (because accidents happen!). Children must be accident free for a full week before underwear is worn to school without pull-ups underneath. Underwear can be worn over pull-ups. We have found that pull-ups work best once a toddler is using the toilet at least 80% of the time and can keep their pull-up dry throughout most of the day.

If your little one is still in diapers/ pull-ups, we ask you bring at least a daily supply of

pull-ups with tabs and extra clothes with you to Playcare. We provide Kirkland Signature wipes, unless a particular brand is preferred. We do not accept cloth or reusable diapers/pull ups. Children will be changed on a clean and sanitary changing mat. All soiled diapers will be properly disposed of.

In between transitions, children will be encouraged to use the bathroom. Throughout the day children are free to use the bathroom whenever they need.

Once children are fully potty trained, they will be encouraged to use the bathroom independently without the direct help of a teacher.

Wellness Policy

The Treehouse is committed to providing a learning environment that supports and promotes wellness, good nutrition, and an active lifestyle. We recognize a positive relationship between good nutrition and physical activity leads toward a healthy development and capacity to learn. Teachers are encouraged to model healthy eating choices as well as activities. Nutrition, health, and exercise are part of our curriculum and everyday lessons, as well as serving daily nutritious snacks. We recommend children get at least 60 minutes of physical activity per day.

Cleaning and Sanitation

*Please see COVID-19 Addendum

At The Treehouse we understand the importance of a clean, sanitary, and organized environment. Not only does it affect children's physical health, but mental health as well! Clorox wipes, Clorox Anywhere spray, and Lysol will be used daily, by the instructions on the labels. Toys will be cleaned once a week or more often if needed. Toileting and diaper areas will be sanitized after each use. Floors will be swept daily. The kitchen and food prep areas will be cleaned before and after preparation. In addition to our cleaning, we have a janitorial company that does a deep clean over the weekend.

Sunscreen/Diaper Cream

We do not apply sunscreen at The Treehouse, we ask that you apply sunscreen before your child arrives.

If you would like to supply your own diaper cream, the package must be properly labeled with your child's first and last name. Please bring this as needed in their backpack.

Screen Time Policy

We do not have televisions, computers, tablets for the children's use, or electronic toys at Treehouse. Children at Treehouse are busy learning through play, nature, natural toys, carefully selected teaching materials, and engaging activities!

Parent Involvement

*Due to COVID-19, this may be paused

The Treehouse has various weekend field trips throughout the year. Parents, grandparents, family, and friends are all encouraged to join in on the fun! This is a wonderful opportunity to get to know your child's friends, teachers, and other Treehouse families.

Do you have a special skill, career, or hobby you would like to teach the children about? We love having parent's volunteer to teach a short lesson/activity on something that is meaningful to them. Some examples would be teaching a new language, talking about your career, or teaching a sport.

Parent Communication and Assessments

Parent communication is extremely important to us and parents are welcome, at any time, to bring up questions, comments, or concerns. Texting is the fastest way to reach the teachers. Please see phone numbers on the front page. Email Jessi and Alli for any administrative questions regarding schedules or tuition.

Daily parent teacher communication is encouraged at drop off and pick up for short conversations and comments. However, sometimes drop off and pick up times can be busy. If you or the teachers have specific comments regarding your child, a time to talk directly and privately can be scheduled or can be addressed over email or a phone conversation. Friday afternoons between 2:30-4:30pm are dedicated to teacher planning time, updates, and parent teacher meetings.

Treehouse updates regarding curriculum, activities, and upcoming events/news will be emailed every Friday or posted on our private family Facebook pages, along with helpful parent resources and home extensions. Follow Treehouse Community or Treehouse Pre-K on Facebook! If you prefer a paper copy of the emails, there will be printed out newsletters in the mudroom.

Every few months individual updates are sent home. The information on these updates rotate from a child's likes, dislikes, friendships, favorite activities, progress and growth, communication skills, social-emotional development, physical development, and cognitive development.

Once per year individual progress reports are emailed home to families. These reports summarize the child's growth in the areas listed above, as well as address areas that need improvement. Our goal is to work as a team with families to help each child reach their true potential and have the best childhood possible! We are your partners in parenting 😊

If your child's teacher has any concerns regarding your child's development, parents will be notified as needed. Overall, we believe children develop at their own pace, and assessments are primarily used as a guide. At The Treehouse, we respect and support parent's decisions and wishes regarding their child's care.

We work closely with Kindering of Bellevue for support and observation for specific concerns regarding development. We also have relationships with speech therapists if parents would like their child observed in a school setting. We are happy to be of support and guidance as this time is crucial in their development.

Confidentiality

Each child and family's information is kept confidential, and only shared when needed between teachers in order to best support the child. All records will be only accessible to staff. Legal guardians must authorize anyone other than themselves and staff to gain access to the child's health and immunization records. It is our goal to ensure the confidentiality of all families.

Behavior Management and Discipline Policy

Treating each other with peace and compassion is our main house rule. As we are aware, kids will be kids! Learning how to treat themselves, each other, and things are all a part of growing up. When discipline is necessary, we will follow our house rules and treat every child with kindness, respect, and compassion. Modeling appropriate and mature behavior is key. We will guide the child's behavior based on understanding the individual needs and stage of development. Under no circumstance will your child be struck, yanked, shaken, sworn at, belittled or otherwise made to feel threatened (absolutely no corporal punishment).

The Treehouse is a special and unique space for children. Everything in our shared space is for their benefit and because of this, there are very few house rules. We believe in giving children feedback and offer running commentary throughout the day, offering encouragement for positive interactions and solutions if an interaction becomes negative. As children develop socially and emotionally they need to experience what it feels like to be both happy and sad, supported and hurt, encouraged and discouraged to be able to develop empathy and understanding. To a certain extent we let children work through conflicts organically and if given time and space they are successful more often

than not. If adult intervention is ever necessary, first and foremost the hurt child is supported. We offer hugs and support before going over what led to the conflict in the first place.

We do not have a one-size fits all discipline policy because each situation is unique and every child is motivated by different feelings. If an unproductive behavior becomes a consistent issue, or is harmful to other children, parents will be notified and an action plan will be discussed. If the behavior continues after all discussed methods are tried, the child may be terminated from The Treehouse.

Each child deserves to spend their day in harmony, experiencing play, and exploration in a safe environment.

Washington State Law also prohibits any person on the premise from using cruel, unusual, hazardous, frightening, or humiliating discipline. In emergency situations, a staff person may use limited physical restraint when needed, and an incident report will be filed.

Biting, Hitting, and Tantrums

Biting is a very common behavior among young children when their teeth are coming through and do not yet have the communication skill they need to handle some situations. It can be a very challenging behavior for both parents and care takers to address. There are many different reasons why children bite. We will do everything possible to reduce biting in playcare, but unfortunately, biting can happen. In the circumstance that a child is going through a biting stage, we will work together with the parents to find strategies and to keep all children safe. Parents will be asked to pick up their child if it's a repeated issue throughout the day.

Hitting and tantrums are a common behavior for toddlers as they learn to express emotion. Our first response with these behaviors is to allow the child to 'cool down' in a safe environment where they will not be able to harm themselves or others. By ignoring tantrums, children usually realize that the behavior does not help them get their way and eventually begin to use other communication skills. When a child's aggressive behavior becomes a safety issue, the child will be separated from the other children and their parents will be notified.

We use our Montessori Peace Table as a soothing environment to calm down. At the Peace Table, a teacher will brainstorm with the child ways to best handle a situation. The Peace Table is a positive conflict resolution area, where children can feel good about themselves and construct plans to better a situation, rather than a negative "Time Out". The Peace Table is also open throughout the day, if children would like alone time or a space to reflect.

Violence, and Reporting Suspected Child Abuse and Neglect

We do not tolerate any threats, violence or destruction on our property. All incidents will promptly be reported and may result in termination. The Treehouse is committed to providing a safe environment for all children, families, teachers, and staff.

All parents want the best for their children. Sometimes abuse is intentional and sometimes it is not. In any case, the child must be protected. We will try to respect your values and methods of child rearing within the bounds of safety and responsible child care practices. However, if it becomes apparent or suspected that the child is being harmed (physically, emotionally, sexually, exploited, or neglected) or takes abuse place on our property, we are required by state law to immediately report such cases to the police or CPS. You also have the right to report any suspicions or incidents that you observe regarding your child or any other child in our care.

We may not be able to notify parents when the police or Child Protective Services are called about possible child abuse, neglect, or exploitation, depending upon the recommendation of CPS.

Alcohol and Drugs

The use of alcohol and smoking is not allowed on the premises of The Treehouse. Parents/guardians are not allowed to pick up children if alcohol or drug use is indicated by behavior or smell. In that event, we will not allow the child to leave with the person under the influence and we will call the names listed on your emergency form to come pick up the child.

Parental Termination Policy

We appreciate as much advance notice as possible when terminating. Parents are required to give two weeks written notice when they decide to terminate childcare. The two weeks will be paid in full, regardless of whether or not the child is in attendance.

Anyone who terminates daycare and has a balance that is outstanding will need to have the account settled within 30 days. All accounts not settled within 30 days will be turned over to a collections agency regardless of amount owed. All accounts turned over to collections will have a \$25 per day late fee plus 35% collections fee added to amount due.

Provider Termination Policy

We reserve the right to terminate a child for the following reasons (but not limited to):

-Failure to pay

- Routinely late picking up your child
- Failure to complete the required forms
- Lack of parental cooperation
- Failure of child to adjust to the preschool after two weeks, without any sign of progression
- Physical or verbal abuse of any person or property
- Our inability to meet the child's needs
- Lack of compliance with handbook regulations
- Serious illness of child

We, the provider, reserve the right to give notice of immediate termination where there are circumstances that affect the well-being of the provider or other children in attendance. If a child's behavior becomes unmanageable, parents will be called to pick up their child immediately. Our priority is to provide a positive experience for all children and families. In the event of provider termination, we will refund the parent for any remaining paid days in the pay period and provide the parents with child care resources, such as ChildCare Aware 1-800-446-1114.

In the event that we, the provider, decide to terminate the child care relationship due to repeated contract violations, by the parent or legal guardian, we reserve the legal right to terminate the child care relationship without notice. To avoid the unfortunate situation from occurring, parents and legal guardians are required to thoroughly read the entire preschool contract. Parents and legal guardians are required to ask for a detailed explanation of any preschool rules and regulations they do not clearly understand prior to enrolling the child in the preschool.

Emergency Preparedness

Despite a very watchful eye sometimes accidents do happen especially with children, it's just a fact of life. Should the unthinkable arise, we want you to feel confident we have a plan in place and are prepared to serve your child to the best of our ability.

In case of a minor injury such as but not limited to: Small bumps, scrapes and cuts we will administer first aid and the parent/guardian will be notified right away or at pick up time (depending on the severity) as to what happened. All accidents, illnesses, or other emergencies are recorded in the Accident Report Log.

For more severe injuries, we will call a parent/guardian, or 911 first if needed and then notify the parents/guardians immediately after. Should the child need to be transported, we will relay the parents/guardians choice of hospital as indicated by intake records. Overlake Hospital will be used if no choice is listed. Should we be unable to contact a parent/guardian, we will call the person or persons listed on your emergency form. All staff are certified in both CPR and First Aid.

If ever we could not locate a child, we will contact the police and the child's parents/guardians immediately. We will then also check outdoors and neighboring homes. In case of an accidental poisoning we will call the poison control center, determine what the child got into, follow the poison center's recommendations, call 911 if needed and alert one of the parents/guardians of the incident.

In the event of a lockdown, we will keep the children inside away from the doors and windows. We will notify all parents/guardians by phone to let you know of the situation so you don't try to come into the neighborhood to pick up your child, until it has been deemed safe to do so.

In the event of a terrorist attack anywhere within the U.S.A. all parents/ guardians will be required to come get their children immediately. We will do what government officials instruct at the time if it affects our area and do our best to keep the children safe until you arrive.

In case of fire or the need to evacuate, we will bring the children our daycare, The Growing Tree Playcare & Preschool at 11415 NE 21st ST. We have an evacuation route posted in the house, along with an emergency backpack containing children's information and first aid. Parents will be notified whether or not their child needs to be picked up (not so if it turns out to be a 'false alarm'). We will do fire drills randomly so that the kids are prepared for such events. If some other emergency comes up, parents or other authorized adults will be notified to pick up their child as soon as possible. Your child's safety is the most important thing to us, and we will do everything in our power to protect them from harm.

During an earthquake, we will help the children find safe places to get cover (i.e. under tables, against walls, away from windows and bookshelves). We will evacuate quickly after to the driveway, where we will notify parents for pick up.

In the event of a largescale natural disaster, we are prepared to safely keep children overnight at school for up to 2 weeks if needed. We have emergency supplies, disaster kits, water, and extra food stored in our garage. When a child starts daycare, we ask that families bring a Disaster Kit to keep at school (and leave when child disenrolls). The disaster kit can be in a large zip lock bag and contain a family photo, comfort item, a few diapers, comfort snack, and any additional emergency supplies you would like to pack.

If you ever fear your child is in any sort of danger while in our care or not, please communicate with us so we can help keep your child safe.

Natural Disasters

In the event of an emergency, we have an emergency backpack with necessary items.

Each parent may provide an emergency “comfort” kit for their child that will be returned when they end enrollment at The Treehouse. Kits can contains the following items:

- Extra clothes, warm sweater or sweatshirt, socks, etc.
- Warm hats/ mittens/ scarf
- Blanket or thermal space blanket
- Family photo, letter, comfort items
- Small toy, stuffed animal, or book

Place these items in a large Ziploc plastic bag and label with your child’s first and last name. All emergency supplies are stored in a large outdoor container located on the side of the house. We also store diapers, wipes, emergency contact information, paper products, battery radio, water and snacks.

In case of fire alarm or the need to evacuate, we will bring the children to the empty lot at end of the road by the freeway wall. We have an evacuation route posted in the house, along with an emergency backpack containing children’s information and first aid. Each teacher will be in charge of 7 children and everyone will hold hands while evacuating. The Director will take roll call, make calls, and review paperwork. Any children with special needs will have a set plan in their file. Please let us know if your child would need special accommodations during an emergency (provide information and equipment in their emergency bag). Parents will be notified by phone and email whether or not their child needs to be picked up (not if it turns out to be a 'false alarm'). We will do fire drills monthly so that the children are prepared for such events. If some other emergency comes up, parents or other authorized adults will be notified to pick up their child as soon as possible also by phone or email. Your child’s safety is the most important thing to us, and we will do everything in our power to protect them from harm.

During an earthquake, we will help the children find safe places to get cover (i.e. under tables, against walls, away from windows and bookshelves). We will evacuate quickly after to the driveway, where we will notify parents for pick up through email and phone.

At The Treehouse we do quarterly disaster drills and monthly fire drills. We are prepared to keep children for up to at least three days in the event that parents cannot get to their children.
